

ACA Ranking Process – Updated December 2021

The following ranking process will be used for 2021/22 Senior and Youth Lead Competition Series in addition to 2021/22 Youth Boulder Series and Youth/Senior Speed

- Boulder and Difficulty will be ranked separately but in the same manner. For each discipline, the athlete will be ranked within their age category based on their best local event point value + their provincial points value.
- Speed is ranked **(To be determined shortly)** completed at an ACA sanctioned speed event.

See [Membership, Ranking and Team Alberta Policy](#) for more detail related to the process for selection to Team Alberta based on competition series ranking.

The updated Local and Provincial Point values are included in the table below. Where two or more athletes are tied in event ranking, the point values are then combined and each receive the average for the combined placements. (i.e. If two athletes are tied for 2nd and 3rd at a local event , then each would receive 8550 points: (9000+8100)/2=8550.
